#### "MONEY IS ESSENTIAL IN OUR LIVES"

We live in a world where "money" is one of the words we hear the most. Some people think that it isn't as important as it's thought. But, can we live forgetting money? The answer is clear: Money is essential to have a good life nowadays.

We have grown up in a society where everybody wants to have a big house, a good car, a TV, the new technologies, a lot of clothes... We are surrounded by adverts trying to make us spend our money, buy more things. They have sold us the idea that if we don't have nothing, we are nothing. If we see someone who doesn't wear brand clothes, we ~~don't~~ won't think as well as if he does.

We judge people by what they have. Another exemple to explain how necessary is to have money (at least enough to live) is that a home where there isn't money to burn or where they fight to afford the rent will have more problems and arguments.

To sum up, money leads our lifes. Some people want to have too much, and some people want enough to survive, but we are all lead by it.
